

ASK YOUR PHYSICIAN

IS GAMMA KNIFE® RIGHT FOR ME?

1. Are you familiar with Gamma Knife?
2. Is Gamma Knife radiosurgery an option for me?
3. What makes someone a candidate for Gamma Knife radiosurgery?
4. Do you know how Gamma Knife radiosurgery would compare with other options in terms of effectiveness, treatment, side effects, and recovery?
5. Does a craniotomy or another option offer a better outcome than Gamma Knife?
6. How will each treatment option affect my daily routine (e.g., going to work, exercising)?
7. What side effects or complications can I expect with each treatment option?
8. Will treatment affect my cognitive reasoning and awareness?
9. How will my condition be evaluated and followed after surgery?
10. How will we know if the treatment is successful?
11. If my condition comes back, could I have treatment again?
12. What experience do you know about re-treatment of my condition with Gamma Knife?
13. Is Gamma Knife® an option even if I had Gamma Knife in the past?
14. Do you know physicians who specialize in Gamma Knife?
15. Do you know if a Gamma Knife center is located near me?
16. Where can I find additional information about Gamma Knife for my condition?
